

Leading EYE Protection from the World's Biggest Selling Roll Up Sunglasses

Protection and Comfort

The two most important qualities of a protective lens. Light-weight, easy to use and attractive, Flexeaze by Rollens are the ultimate in protective eye ware. The unique grip-flex design and contoured shape gently holds the lens close to the face to offer significantly more protection.

Flexeaze require no folding, bending or time consuming adjustments. They conveniently adjust to fit facial contours.

One-size fits all, and because of the super-light-weight design, folk hardly know they have them on. With Flexeaze you can always have a spare pair of sunglasses in your car, purse, backpack, desk, briefcase, boat, gym bag and locker. Get a bag of 20 Flexeaze for less than what a single pair of sunglasses might cost.

Great for Outdoors

You're outside in the sun and wind and you want 100% ultraviolet light protection.

Flexeaze are so light and unobtrusive that you barely know you have them on.

Great for Indoors

Get paint in your eyes when painting a ceiling, saw dust when sanding or dust and pollen when gardening?...

Well carry a pair of Flexeaze CLEAR glasses.

A Good Sport

Because they are unbreakable and lightweight, Flexeaze are ideal for outdoor sports and the 180-degree wrap around design offers protection from wind and dust. Just slip a pair in your locker or fishing bag.

Travel Light

When travelling, take along as many Flexeaze as you like and have plenty of room for souvenirs.

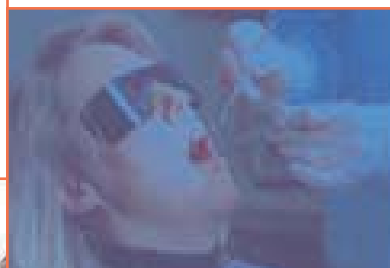

No need to worry if you leave a pair behind in the hotel room, as Flexeaze can be replaced for less than the cost of a beer!

Just Kidding Around

You may be interested in protecting their sight but kids just want to look cool. Because Flexeaze have a universal fit, kids of all ages can wear them.

Tested To Be Effective

Flexeaze protective lens has been reviewed by an independent non-profit dental testing laboratory and were found to be effective as a disposable eye protective device.
